Neil Oliver and Alice Roberts go back to the Iron Age

## The Celts: Blood, Iron & Sacrifice

● DOCUMENTARY 9.00pm, [BBC2](#)

**NEW** Who were the Celts – ancient barbarians or an industrious, wealthy civilisation? In this new three-part series, Alice Roberts and Neil Oliver team up to find out more about our Iron Age ancestors, who fought against the Roman Empire for some 400 years. The series begins by tracing the Celts' origins

in the Alps and re-living their first battle with the Romans in 387BC. Alice also examines artefacts that were unearthed in France two years ago and discovers more about how this proud race of people valued their possessions and appearance. It's a far cry from the savages depicted by the Romans. ★★★★★ *MC*
